Another bigger version of a classic Interstellar fixture but with the addition of a colour resin. Now you can choose between different types of wood, colour, make it dimmable and also choose the colour of resin that will make your fixture unique.

ASTRA

Round shape chandelier h 430x1050x420 mm 6 kg LED 12vDC 100 watt 2500 lumens

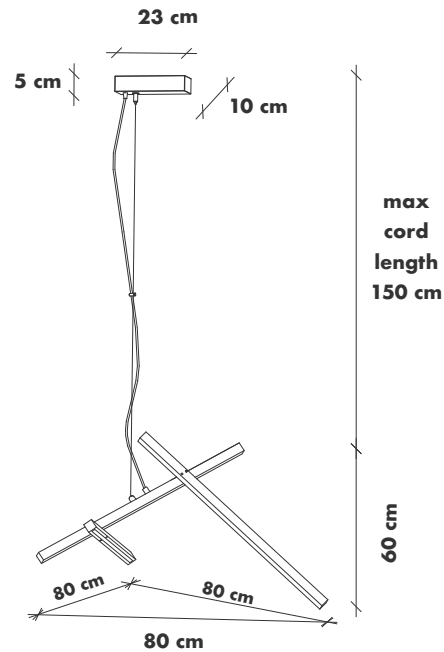

NEBULA

Build-up pendant h 800x800x800 mm 3 kg LED 12vDC 60 watt 800 lumens

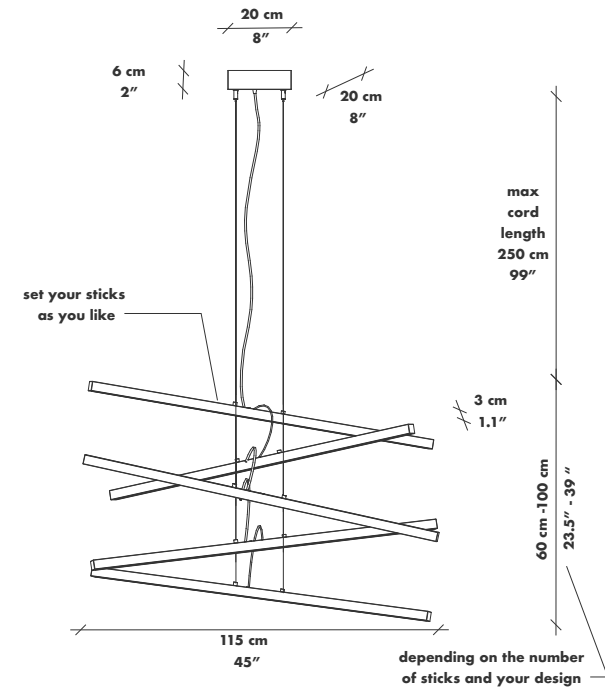

A simple and elegant fixture, made in a minimalist style will refresh your interior and bring nice and soft lighting to the place. Choose the type of wood and colour, make it dimmable if you want to and breath a new life into any space.

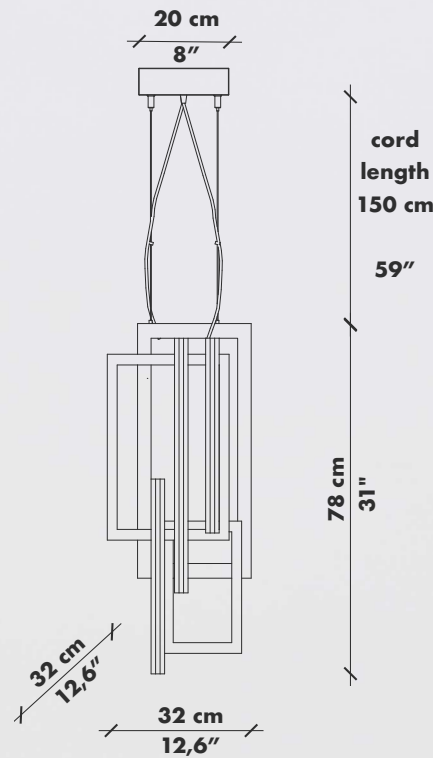

CASCADE

Build-up chandelier h 600x1150x500 mm 4-10kg LED 12vDC 60 watt 1500 lumens

Like our DNA chandelier, the Cascade is also a build-up fixture. Minimum order starts with 3 planks and goes up to 18. Choose between different types of wood and colour, make it dimmable if you want to and breath a new life into any space.

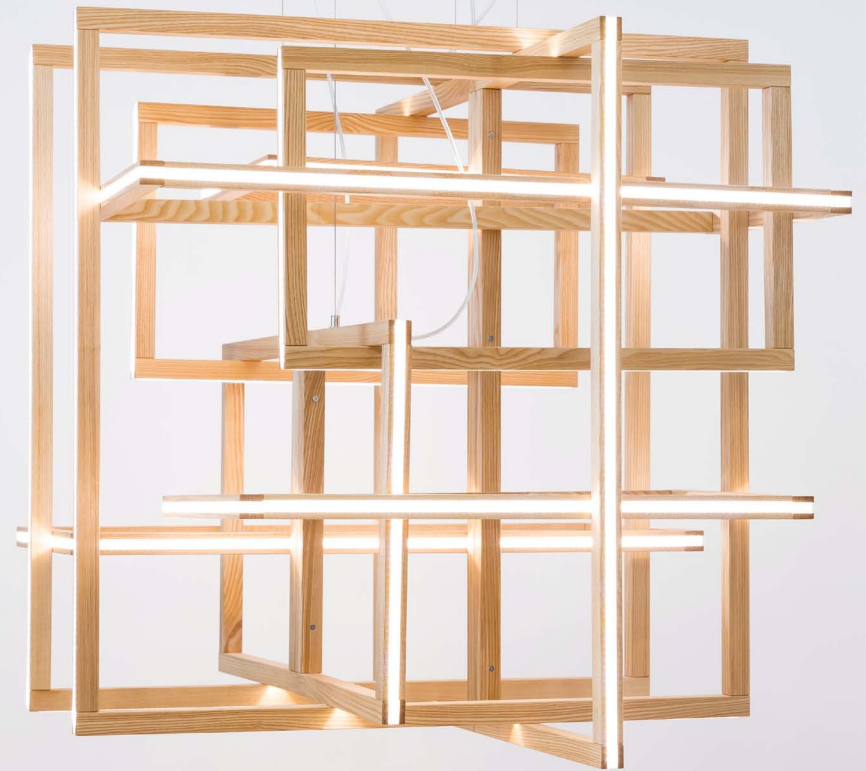

INTERLACEMENT

Interlaced chandelier h 780x320x320 mm 5 kg LED 12vDC 100 watt 2500 lumens

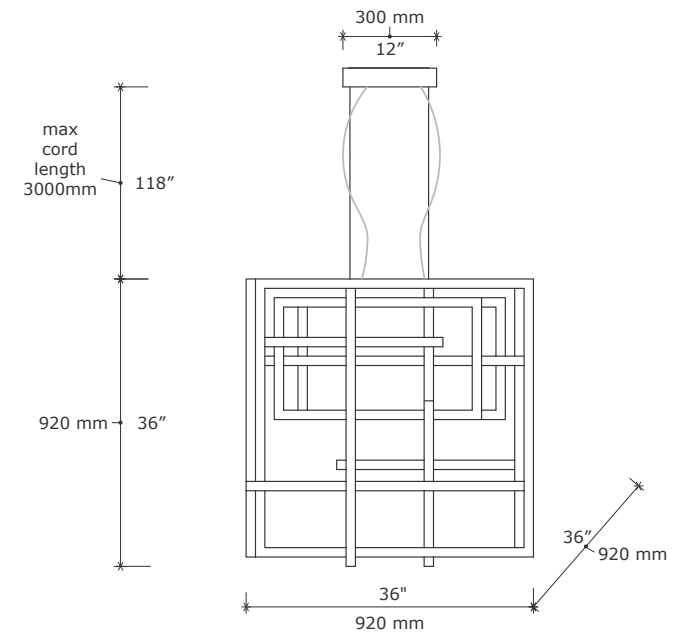

Interlacement is a high-tech chandelier designed for decorative lighting. Because of its interlaced parts, the fixture looks like a chain. Combine 2-3 fixtures and create an impression of a massive chandelier. Choose between different types of wood and colour, make it dimmable if you want to and breath a new life into any space.

CUBE

Big size chandelier h 920x920x920 mm 14 kg LED 12vDC 300 watt 7000 lumens

Cube is a high-tech chandelier designed for decorative lighting. Because of its interlaced parts, the chandelier looks like a big cube made of small ones. The Cube chandelier will look best in loft interiors, staircases with high ceilings, art-galleries and exhibition halls. Choose the type of wood and colour, make it dimmable if you want to and breath a new life into any space.

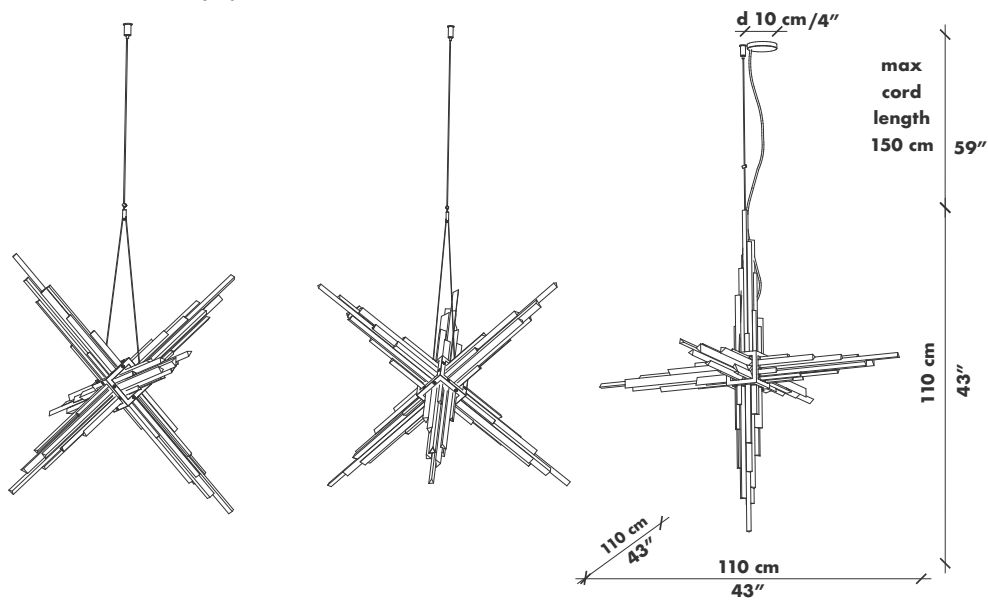

ACRUX

1 fixture - 3 versions of hanging 1100x1100x1100 mm 4.5 kg LED 110/220v e12/14 200 lumens

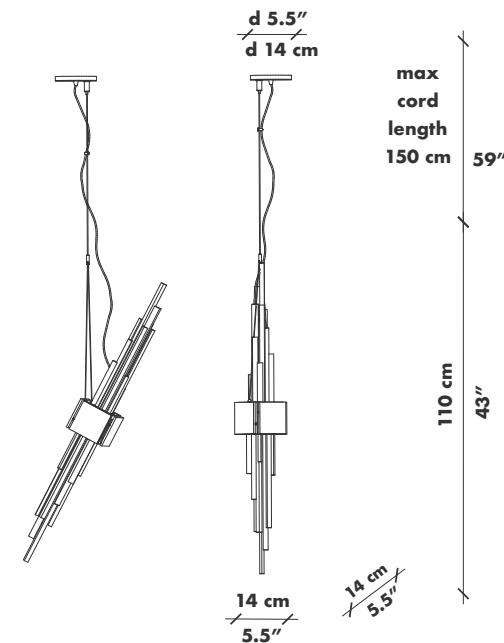

Acrux is a big size chandelier made of wood, acrylic glass and metal. The chandelier has many crystals made from acrylic glass which creates the effect of mysterious lighting. Choose the type of wood and colour, the colour of the metal base and make it dimmable if you want to. Breathe a new life into any space.

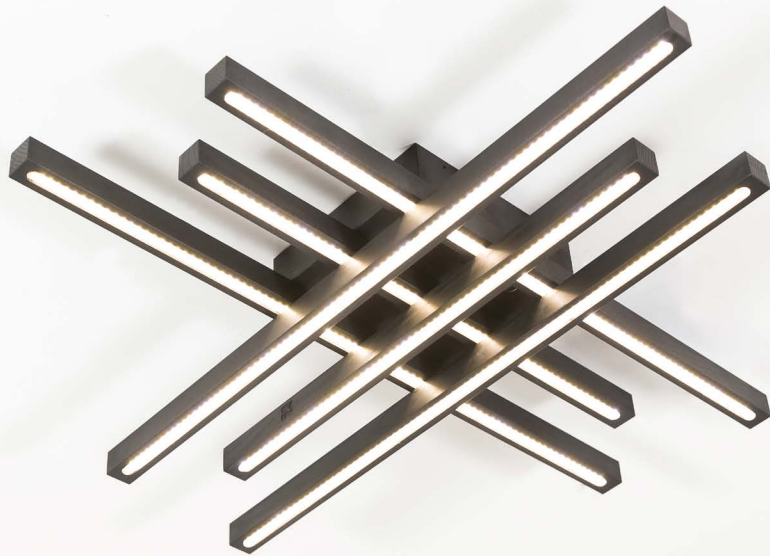

ACRUX PENDANT

1 fixture - 3 versions of hanging h1100x140x140 mm 3 kg LED 110/220v e12/14 400 lumens

Our Acrux chandelier blown up like a star and bore these shiny little pieces! Made of solid wood, acrylic glass and metal to refresh your interior. The chandelier has many crystals made from acrylic glass which creates the effect of mysterious lighting. Choose the type of wood and colour, the colour of the metal base and make it dimmable if you want to. Breathe a new life into any space.

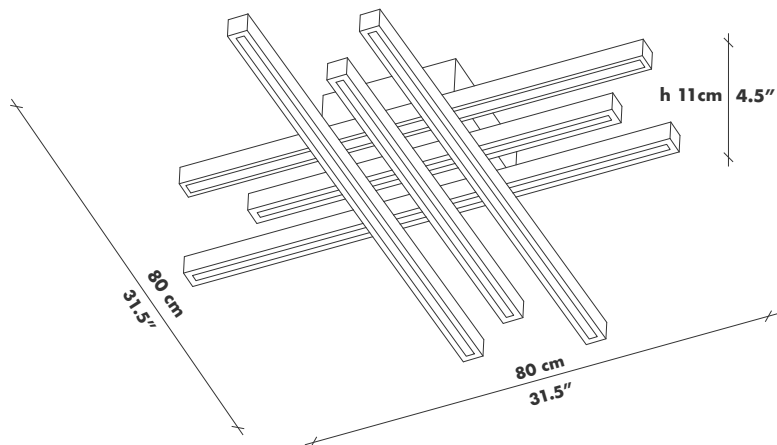

EQUIE

Ceiling light h 110x800x800 mm 4 kg LED 12vDC 60 watt 2500 lumens

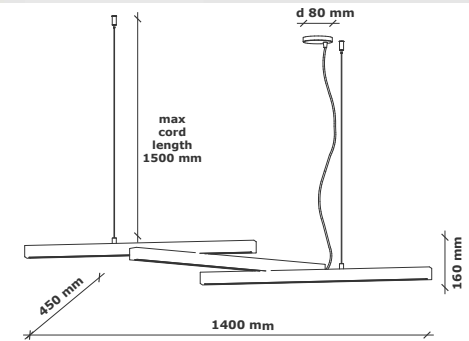

A compact and cosy ceiling light that perfectly harmonizes with "Equilibrium" or "Equilibrium Long" wall sconces. Choose between different types of wood and colour, make it dimmable if you want to and breath a new life into any space.

SOLO

Long pendant h 120x1400x450 mm 3 kg LED 12vDC 60 watt 2600 lumens

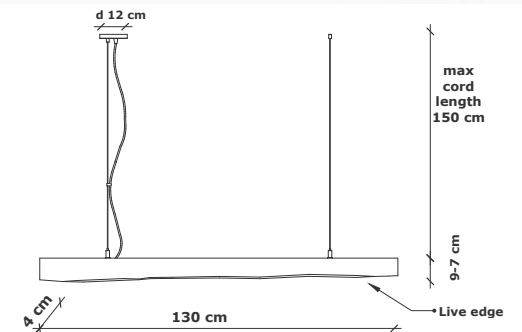

Simple and elegant lighting fixture created in a minimalist style as a perfect office, shop or showroom light. Choose between different types of wood and colour, make it dimmable if you want to and breath a new life into any space.

DRUID

Long pendant h 90x1300x40 mm custom length available 4.5 kg LED 12v-24v DC 35 watt 1200 lumens

Druid pendant is a unique wooden log of an old oak tree with live edges and natural holes crafted by nature itself. After it is filled by transparent resin in our studio, Druid transforms into a timeless, elegant, simple and authentic designer lamp. Due to its minimalist design, this fixture looks good in any interior. You can choose the colour and make it dimmable.

The DNA chandelier has a spiral-shaped structure made of wooden planks with built-in professional LED lighting. Depending on the number of elements, the length of the chandelier changes. The minimum order starts from 5 planks and goes up to 16 per one fixture. This fixture has a horizontal or vertical version. Because of its two intertwined parts, this chandelier looks similar to a DNA molecule. Choose between different types of wood and colour, make it dimmable if you want to and breath a new life into any space.

built-in LED lighting.

NEXT LEVEL DESIGN STUDIO - a company created in 2014 by two outstanding people - a talented designer Artem Kolyuka and furniture manufacturer Mykola Savin. The studio located in the most western and very old city of Ukraine - Uzhhorod, surrounded by Carpathian mountains, continues the tradition of high-quality wood processing for the production of unique wooden decor and light fixtures. In 2018 NLDS introduced a separate branch - NEXT LEVEL LIGHTING, focused on design and creation of outstanding and exclusive lighting from eco-friendly wooden materials. Next Level Lighting is all about the combination of nature, beauty, exclusive design, environmental aesthetics and maximum functionality.

WE BELIEVE IN NATURE,
 WE CREATE OUR PRODUCTS WITH PASSION
 AND WE WANT YOU TO LET THE BEAUTY IN!

LED COLOUR

In all of our chandeliers we use professional COB LED strip, which is UL listed, has 3 years or 13000 hours of official warranty period. The LED is solid-state device, durable and sustainable to vibrations, mechanical factors and damage. A wide range of input voltage makes lamps resilient to voltage change, keeping the light intensity.

WOOD TYPE & COLOUR

We work with 4 types of wood: ash, oak, European and black walnut. Our planks are made with the accent on natural wood texture. Crafted, polished and smoothed by hand in our Studio, using durable safe materials like colour oil and wax by LOBA and OSMO brands from Germany.

Our products are handcrafted and we use eco-friendly wooden materials! The wood color, texture and thickness varies from time to time, which is why every single piece is unique and there may be a difference between the product shown on photo and the one that you will receive.
